Written Testimony  
This law is long overdue. Children die from cancer every day due to second hand cigarette smoke and this needs to stop. If we don't tell people exactly how completely unacceptable it is they will continue to think it's okay to smoke in the car with kids. The opponents of this bill have a profit motive or a self-gratification motive and they need to have their eyes opened to the suffering and death they cause.  
They should spend some time with the victims and their families in the pediatric cancer wards on Oahu.
